TERMS OF DAILY DEMOCRAT TO THE Three Months

> THE UNION PARTY -OF-

JEFFERSON COUNTY WILL MEET IN CONVENTION

JEFFERSON TOWN

SATURDAY, JULY 6th, 1861,

O PLACE IN NOMINATION A CANDIDATE TO REPRESENT THIS COUNTY IN THE NEXT LEGISLATURE.

The Paducah Herald says, there is no doubt but Magoffin, Cissel & Co. are Secessionists, and are working to get Kentucky out of the Union, and into the Southern Confederacy. That is the truth, if it does appear in the Herald. They are Secessionists, and so are the party they lead, and all who give them aid and comfort are promoting the same end. They deny it, however, when they had just as well own up; for their denial can't now deceive anybody who doesn't want to be cheated. They are no wiser than the ostrich, which sticks its head in the sand and thinks itself concealed. Their denial only shows that they would deceive people if they could. They have learned from observation, made upon other States, that honesty is not the best policy; that fraud and juggling have succeeded; and that when people have once taken the fatal step, they must follow their leaders to get out, and are so involved in the meshes woven by demagogues that they can't retrace their steps. It is not true that honesty is the best policy to accomplish a bad end. Unfortunately for them, and fortunately for Kentucky, their schemes now come a little too late. The people of this State are wide awake. They understand what is aimed at. They have tasted its bitter fruits, and they have observed the process of manipulation by which other people have been precipitated. The Herald has tried the dodging process, the dishonesty, and it has failed in Kentucky. The editor is now for trying honesty; but that is impossible. He can't try honesty honestly; and he would never choose an honest course if a dishonest one will answer the purpose. He tells the truth, however, on his associate leaders. They have been dodging; they are still dodging; but everybody sees it. It is broad day light now in Kentucky, and indirect serpentine courses will not do. If the purpose is to plunge Kentucky into district by the innate power and truth of revolution, it is just as well to say so; for there is no step to that end the people will

not understand. We have many utopian suggestions these times, with which well-meaning people, and sometimes intelligent people, are and failed. Her Southern men then took carried away. Why not accept the neces sity of two Governments, and acquiesce in division. Let them make a treaty, secur ing free trade and transit, with the same tariff as to foreign nations, and all the rights dedge, and lost by thousands. One ide or the other would secede, and leave rould reject the agreement, and dissatisfied states would secede. It's not impossible to nake war and break up governments, but te make an amicable treaty and build up governments out of broken, hostile fragments, in peace and good will to men, is an impossibility. If we are to divide, a treaty will at last be made by the chiefs of opposite sections, with armies at their back to compel an acceptance of the terms they may for a ten-inch Columbiad pivot gun. agree upon. A peaceable division of this Union, and the two parts ready for sea, about two hundred men, living in harmony and peace, is a utopian dream. Let sensible men dismiss the impracticable vision; it's a delusion and a an improved rifle cannon, they will be a snare. The men of the revolution were most formidable war vessel. It is presumed wise, practical men. They began a revolution and ended it. They shuddered at the water, which would enable them to run into disintegration of the Colonies or States, and shoal water; and the bars, banks and shoals other boat will be chartered for felt that all was lost if they could not prevent it. They worked with painful solicitude for a more "perfect Union" to save to fifteen knots under steam alone, and with their work. They exulted in the achievement, but watched it with alternate hopes and fears to the end of their days. They knew how hard it was to make a government for men. Their minds were too sound and healthy to be deluded by any utopian visions of the perfectability of man. Washington exhorted his countrymen to regard the Union as the paladium of their liberties. He exhorted them not to speak of its disso-Intion as a possibility. It was his last advice. We answer that though overwhelmed, we are not conquered—though beaten, we are not subdued. The result, mortifying as it certainly is, occurred from the blunders and false policy of our friends in every portion of the State except below the Tennessee river. In the "Purchase," where the Herald boldly threw out the banner of Herald boldly threw out the banner of Richmond only beat her by one vote, and that, too, while Tennessee had not a memtinctly made upon that issue, we have tri-umphed glouiously and by thousands. July. I learn from a gentleman directly from the West that General McClellan commands Western Virginia, and is superintending in person vitally important movements against the rebels.

General Fremont has instructions to proceed to Harper's Ferry to command the division under Patterson.

FORTRESS MONROE, July 1 .- The Third Massachusetts regiment to-day moved from the encampment within the fort to occupy a position between Hampton and New Market ridge. Hampton creek is crossed by a battery manned by the Naval Brigade.

It appears General Butler is not partial to the Massachusetts regiment. One of the Lauisiana Zouaves, prisoner, is named Clark, and was formerly a wood engraver in the employ of Harper Bros., in New York.

In the march trom Yorktown the Zouaves were supplied only with flour, to be cooked as occasion might require. The force which advanced consisted of 2,600 in infantry and 300 cavalry. The two deserters represent the force as being 1,000 strong. They reached a point two miles this site of Great Bethel where the expedition seems to have miscarried, the greater part returning to Yorktown.

Lieutenant Butler goes to Massachusetts to-day to induce that State to send a regiment of cavalry to Fort Monroe.

The Quaker City brought up a prize schooner owned in Yorktown. A flag of truce has just come from Norfolk with Dr. Richards, physician to the President.

nt at Cold Spring states that on Tuesday, the 11th inst., the Baptist Church in that village was struck with lightning. The electric fluid entered the building at a closed window, tore off the paper from the wall, and then escaping through the roof, pass to a cedar tree near the church. The bark was stripped from the cedar, and the discharge then passed along the ground for about thirty feet, leaving a furrow like that made by a plow, and glancing over a stone wall struck and peeled the trunk of a cherry tree, when it escaped into the earth. In the stone wall was found a large rock which lise is as cunning a soldier as he has proved has been completely shattered by the subtle element in its passage. PARGNY'S CONFECTIONERY

RESTAURANT MONS, J. PARGNY BEGS LEAVE TO ANNOUNCE to his friends and the public generally that his arrangements are at length completed, and the various departments of his business are fully organized.

THE LADIES' RESTAURANT Is a new feature in this city, and Mons. Pargny piedges himself that it shall be conducted in the most orderly and unexceptionable manner. The entrance is through the Confectionery, and the utmost care will be taken that the persons admitted shall be only such as the most fastidious cannot object to. All the delicacles of the season, together with SHERBETS, ICES, &c., are always on hand, winter and summer.

THE CONFECTIONERY Is supplied with everything that can tempt the eye of please the taste. Many of the articles have never be-fore been offered for sale in this city.

THE GENTLEMEN'S RESTAURANT Is quiet and orderly. No Bar's kept, but the purest and dness of Liquors are furnished to the guests at the tables. Every article and every dish which is within reach of the resources of the cook can be had, from a slice of American Ham to a pade de foie gras. Mons. Parguy flatters himself that his cuisine is equal to any in America. Thankful for past favors, he hopes, by attention and politeness, to merit a continuance of the same. san.e.

AP Parties, private and public Dinners, Suppers.

&c., will be supplied in the best manner, and on the most reasonable terms, either at the Restaurant or elsewhere.

SENSATION ITEMS-GEN. PILLOW .- The Memphis Appeal has given circulation to a report obtained from Gen. Pillow, who got it from somebody else "officially," that our cotton was to be bought by France and England before grown; and that the recognition of the Southern Confederacy was by these nations determined. We know (and not from Gen. Pillow.) that no advance on the cotton has been offered, and we know that whatever the French and British governments may eventually do, their intentions are not likely to officially reach Gen. Pillow the Appeal, or any other man or institution in Memphis, before they are known to their ambassadors and to their own press. How people can believe such an absurdity as that two great governments would first announce to the world their intentions through a militia general to a Memphis paper is rather more than we can understand. CHEROKEE REMEDY .- The unparalleled success which has attended this midicine in all parts of the country-the many remarkable cures that have been effected by its use, which were hitherto pronounced incurable by the most eminent physicians-justifies us in proclaiming its virtues to our readers. It has proved itself to be the most effectual remedy ever discovered for the cure of Genorrhea, Gleet, Strictures, Fluor Albus (whites in females), and all diseases of the urinary organs, curing these complaints more speedily and permanently than any other medicine known. It is compounded from extracts of roots, barks and leaves in such a manner as to have a powerful diuretic and diaphoretic action on the skin and kidneys, and, at the same time, as an alterative it has no equal. Thus the combination acts not only on the skin and kidneys, but also on the blood-for this reason it produces a much more speedy action, in all chronic cases, than any other medicine now before the public. It is not only a specific for the diseases above named, but it also cures scrofula, secondary syphillis, glandular swellings, and all mercurial taints. It acts on all the secretions of the system, and at the same time carries off the disease, not only through the blood, but also through the secretions of the skin and kidneys-good blood is transported through the chyle to the diseased parts of the body, until the entire system is in a healthy condition. See advertisement. jy2 d, w&\$w1t

"He remembered the Forgotten" was beautifully said of Howard the philanthropist. It also applies to every man who brings the ameliorations, comforts and enjoyments of life within the reach of persons and classes who are otherwise deprived of their advantages. Especially may it be said of him who laboriously seeks and finds new means of preserving the health, "the poor man's capital and the rich man's power."

BY ONE OF THE MOST DESIRABLE LOTS, CENTRALLY LOTS, CENTRA man's capital and the rich man's power." We think this eulogium properly applied to J. C. Ayer, of Lowell, the renowned chemist of New England who, spurning the trodden paths to fame, devotes his entire abilities and acquirements to the discovery of Nature's most effectual remedies for disease. When the hidden blessing has been revealed, he proceeds to supply it to all mankind alike, through our druggists, at such low prices that poor and rich may alike enjoy its benefits .- Journal and Enquirer, Portland, Jy2 d&wlt

The following complimentary notice is taken from the Missouri Democrat: IMMENSE AMOUNT OF SUFFERING RELIEVED

BY TAKING MOLEAN'S STRENGTHENING COR-DIAL -Since the 17th of August, the following cases have been reported cured: 105 persons have been cured of General Debility.

68 persons have been cured of Nervous Debility.

28 persons have been cured of diseases of the Kidneys.

180 persons who have been afflicted with various complaints, Fever, Chronic Diarrhes, Dysentery, Liver Complaint, Night Sweats, Dyspepsy, and Weakness of the Digestive Organs, have been cured, besides a large number from whom we have not yet heard.

McLean's Strengthening Cordial and Blood Purifier is a remedy required by every one in the Western and Southern country. It is very pleasant and agreeable to take, and it can be taken by man, woman, or

As a diuretic, it will cure any disease of the Kidneys or Bladder, and as an alterative, it will purify the blood, and remove all pimples, sores, or blotches from the skin.

Try it-one drachm is sufficient to convince the most sceptical of its wonderful strengthening and invigorating properties. See the advertisement in another column. jy2 d&wlm

"More precious than ru bies" is health, but if we believe the advertising columns of the papers no one need be without that great desideratum; the remedies are almost as numerous as the diseases themselves, each one of the former better than its compeers. WRIGHT'S REJUVENATING ELIXIR is a star of great magnitude among the myriad; it scarcely can be classed as a medicine, for Fifes! Fifes! Fifes! it is pleasant to the taste, exhilarating and bracing in its action, and both harmless and effective in its operation upon the nervous, debilitated, weak or woe-begone victim of bad health and worse treatment.
